

BAJRA SUCCESS STORY		
Name of the Intervention: Kharif 2022-23 on Millets (Bajra).		
District: PRAKASAM	Mandal: THALLUR	Village: SIVARAMPURAM
1	NameoftheFarmer	NARIPEDDI VENKATESWARLU
2	FatherName	KOTESWAR RAO
3	Village	SIVARAMPURAM
4	Mandal	THALLUR
5	District	PRAKASAM
6	FarmerContactNo	9502707986
7	DetailsofFarm/SoilType	BLACK SOIL
	i.Extent (in Ha)	2.51 Ha
	ii.SurveyNo /Location	32-1,35-3
	iii.Irrigated/Rainfed	IRRIGATED
10	Technologies/Good Agricultural Practices/Facilities/Benefits obtained With details	i.Seed treatment with Carbendizim @ 2-2.5gm/Kg. ii. Ecological engineering method of pest management by growing marigold as trap crop. iii. Spraying Neem products at vegetative stage. iv. Erection of yellow sticky traps and bird perches.
11	Details of results obtained due to the Adoption of technologies	i.Reduced usage of pesticides at initial stages due to seed treatment. ii. Conservation of natural enemies by NSKE spray instead of pesticides. iii. Need based chemicals applied by regular monitoring of pest and diseases through the MAO.
	i.Procuctivity/Hectare(kgs) Yield/Hectare:	3250 kgs/Hectare
	ii.TotalValueofProductivity Yield/HectareXMarketValue:	Rs.73125/-
	iii.CostofCultivation/Hectare	Rs.15070/-
	iv.NetIncome/Hectare	Rs.58055/-
12	Natural resources saved/Conserved	i. Ladybird beetles ii. Spiders iii. Preying mantids
13	Product Quality Improvement	Good Quality of Produce
14	Marketing Strategy- Access to Market	Seed sold to the Buyer who is located in the village
15	Impact Points /Factors Contributing to success	i.Integrated pest management and Integrated Nutrient Management has adopted in crops season through the guidance of MAO. ii.Timely supplyof quality inputs(Pre-tested) (Seeds,Fertilizers, Pesticides)by the Department through RBKs.
16	Any other relevant Information (Impact Points)	i. Farmers getting remunerative price for good quality produce ii. Consumption of pesticide residues free produce by the producers and as well as consumers.
